Everyday there is a new security breach…

Cybercrime is on the rise…

- Phishing
- Ransomware
- Social Engineering
- Hacking

*Are you prepared to keep yourself safe?*

Are you looking to better protect yourself at home and in the workplace? Keeping your digital footprint safe and understanding the “do’s and don’ts” are a part of every decision you make when you access the cloud.

As we become more connected and dependent on the cloud, cybercrime becomes easier and more rewarding. We are looking to raise awareness through the resources available at this year’s Cybersecurity fair.

Come join us in the North Las Vegas Student Union on October 30.

- Industry Professionals
- CSN’s Cyber Security Club
- Vendor Tables
- STEM – Key to Driving the Next-Generation of Cyber Security Professionals
- Guest Speakers

CSN is an equal employment opportunity/affirmative action institution. For more information, please visit www.csn.edu/nondiscrimination
